35. Would you object to an authorized representative of the Terre Haute Humane Society inspecting the animal and premises where the animal is being kept? Yes ___ No ___

The Terre Haute Humane Society reserves the right to refuse adoption to anyone. No animal will be adopted to persons having an extensive history of losing, giving away, selling, or having animals injured or killed by moving vehicles. No animal will be adopted to prospective owners who mislead or fail to provide accurate information on the adoption application.

The animals available for adoption came here from a variety of sources, and **histories are not available on most of these animals.** All animals are examined upon entry, and their health is routinely monitored while at the shelter, **however there is always the chance that an animal is incubating a disease without showing any clinical signs.** Therefore your veterinarian should examine any new pet **within 5 business days of adoption**, and proper medical care should be provided for the remainder of its life.

I understand that the adoption fee is considered a **donation**, there will be **NO refunds** unless it is determined by a veterinarian, within **5 business days** after the animal leaves THHS, that the animal is **ill** and that you wish to return it to THHS at that time. *Return of your adoption fee will NOT be immediate. A check will be mailed to the address on this application within 3 weeks of the return of the animal.* The fee will *never be refunded in cash, even if paid in cash.* Refunds will NOT be given if you decide that the animal isn't suitable for your home, or any other non-medical reason. Terre Haute Humane Society will accept the return of any pet adopted from it's facility at any time if you can no longer keep it.

*All animals adopted from the Terre Haute Humane Society will be altered (spayed or neutered) **prior to going home** with their new family. You will be expected to take your new pet to your veterinarian within 5 business days for any additional vaccinations or tests that may be needed. Many veterinarians will do a free examination when you present your adoption paperwork. (Please remember to make an appointment and inquire if there will be an office visit charge.) All additional tests, medications or vaccinations are NOT included in the free exam.

***Adult Dogs** will be tested for Heartworm prior to surgery. If the test is positive, do you still wish to adopt this animal understanding that heartworm treatment for this animal must be provided and that the treatment will be expensive? (please ask about insurance offer) **___ YES, I still wish to adopt or NO ___, I do not want to adopt if this dog tests positive for heartworm.** (ask if you do not understand.)

Please sign here that you have read, and agree to the above conditions: _____
